	134	The fascination of Audi

The first coupé, shaped by determination.

There is nothing more exciting than a premiere. Especially in your new car. The first sight of it. The first time you accelerate, the first corner, the first long ride. For this special feeling, there is a very special car: the Audi A5 Coupé. In a new design, with even greater driving dynamics. For new ways, new thoughts, new ideas. Get in. And experience every ride like it was the first.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

A5

Audi A5 Coupé

The Audi A5 Coupé plays with the proportions of classic coupés. The flat roof and the sweep of the roof line convey a sporty elegance. A multitude of rich colours and attractive tyre/wheel combinations between 17 and 20 inches in size emphasises the design.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

The precise downward sloping lines of the expressive front and the three-dimensionally carved out bonnet symbolise determination and give the A5 Coupé a convincing stance. The sculptural transverse braces of the newly interpreted Singleframe are impressive and underline the three-dimensional design. The headlights have been redesigned. The optional xenon plus headlights also have a new striking LED daytime running light band. The front fog lights have been revised and integrated into the new high-gloss blade. The redesigned rear lights elegantly combine the side with the rear; the shoulder line passes through them and ends in a clear bumper edge.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

The A5 Coupé not only looks sporty – the dynamism of its inner values are also very convincing. The quattro® permanent all-wheel drive with wheel-selective torque distribution and self-locking centre differential will help you stay on track better. On request, quattro is also available with sports differential.

The A5 Coupé is extremely efficient: the highly supercharged injection engines are among the most economic and cleanest currently available world-wide. Two petrol and four diesel engines, all equipped with start-stop system, recuperation and up to 180 kW are only waiting for one thing – you.

The new standard electromechanical power steering works depending on the speed and ensures greater steering precision and comfort. In addition, it only requires fuel if you actively request steering support.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

Numerous innovative and advanced assistance systems increase both safety and comfort. For example, Audi active lane assist warns you if you inadvertently drift out of your lane, while adaptive cruise control regulates the distance to the vehicle in front – even bringing you to a complete standstill under certain circumstances. Audi drive select lets you drive according to your mood – more comfortable or rather sporty as you prefer. The dynamic steering* can be ordered with the system on request, which adapts to the respective mode selected and ensures smoother handling or faster implementation of your steering commands.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

* For information on when this feature will be available, please contact your Audi partner.

The interior radiates elegance and sportiness. The architecture is harmonious and creates a lively atmosphere. Selected materials emphasise the high quality of workmanship, which you will see and above all feel. The standard leather-covered sports steering wheel in 3-spoke design provides a good grip, as does the ergonomically shaped gear or selection lever knob, which is also leather-covered.

The optional MMI® navigation plus has been enhanced. Operated via the MMI® button with integrated joystick, its features include a high-quality 7-inch colour display, 3D map representation and a hard drive for your personal music and media files.

On request, you even have numerous Audi connect services at your disposal in conjunction with the Bluetooth car phone online. These include, for example, the vehicle's own WiFi hotspot, navigation with the aid of Google Earth images or traffic information online. More information about these features can be found on page 67 and from page 109 in the infotainment and Audi connect sections.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

No matter what you plan to do in your Audi A5 Coupé – you will enjoy every second. For example, the comfortable seats featuring exclusive cloth trim, finest-grade leather or a combination of high-quality Alcantara and leather, the choice being entirely yours. On request, you can also choose the ventilated and heated climate-controlled comfort seats in the front. The generous proportions of the optional electric panoramic tilting sunroof with sunblind make the journey even more pleasant for all the occupants.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

A new form of sportiness.

A car in which the “sports” idea has been brought to a classic form – the Audi S5 Coupé. It is more than metal and engineering. It’s dynamic is now within reach. A sports car whose lines appear as if honed to size. The new engine concept challenges every road. Even more precise. Even sharper. Even more powerful. Admire it. And then: step inside.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

S5

Audi S5 Coupé

The Audi S5 Coupé positively sticks to the road: stronger stabilisers and stiffer spring/damper tuning make it possible. Outstanding directional stability is provided by the broad track and long wheelbase.

Only a brief touch on the accelerator pedal is required: six turbocharged cylinders respond immediately and release 245 kW of power. The TFSI® technology ensures you progress not only more quickly, but also more efficiently. The displacement of less than 3 litres makes the power unit light and sporty and generates 440 Nm, allowing you to accelerate to up to 250 km/h (limited). In brief: more power for your engine – more pleasure on the road.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

In the Audi S5 Coupé, the quattro® permanent all-wheel drive works with wheel-selective torque distribution and self-locking centre differential. The system adapts to the changes in road surface in fractions of a second, thus providing outstanding traction. On request, quattro® with sports differential guarantees even more acceleration performance, particularly round corners.

The new electromechanical power steering system reacts quickly to your steering commands. The high-performance 17-inch braking system in the Audi S5 Coupé is exactly tuned to the sporty driving style of this car.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

It only takes a moment before the Audi S5 Coupé wins you over. The drawn-out lines of the side sections crouch down, while with its flat roof the Audi S5 Coupé appears to be about to spring forward. The standard 18-inch cast aluminium wheels reinforce the athletic impression. One blink of the eye and the Audi S5 Coupé is up and away.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

The newly designed Audi Singleframe with the S5 logo flashes in the light, the bumper directs your view downwards to the front fog lights with aluminium-look surrounds. The S5 logo on the front brake callipers shimmers through the wheel spokes. The xenon headlights are equipped with a new LED daytime running light band. And the newly interpreted rear does not simply round the vehicle off, it is making a statement: the four oval twin tailpipes signal power, the clearly defined trailing edge suggests consistency.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

The interior of the Audi S5 Coupé is characterised by pure sportiness: thanks to the optional S sports seats at the front with S5 embossing, seat heater at the front and electrical seat adjustment as well as the leather-covered multifunction sports steering wheel with S5 emblem and aluminium-look shift paddles. The interior is generously comfortable. The headlining in black or optionally in lunar silver creates a dynamic tension. High-quality inlays in Matt brushed aluminium, Piano finish black, Carbon Atlas, Stainless steel mesh or Fine birch wood grey set fascinating highlights. The ergonomic layout of the instruments makes them very easy to operate. It feels as though you had never driven another car.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

More experience: a new driving sensation.

There are moments you have already experienced lots of times. But all of a sudden, they feel new again. Because all at once everything feels more intense. Because you feel more and experience more than usual.

A ride in the new A5 Cabriolet is one of those moments. Because you exchange what you are used to for something unusual. And you feel that it is more than just a new Cabriolet. It is a new driving sensation.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

A5

Audi A5 Cabriolet

The first exciting journey is made by your eyes. The moment you set eyes on the silhouette of the new Audi A5 Cabriolet. Its long wheelbase. The apparently extended bonnet. The short overhangs. Details which underline the athletic Coupé character just as much as the striking body lines.

An unmistakable presence with the fully automatic fabric hood: it is characterised by a high degree of comfort and well thought-out details both when open or closed. So it only takes 15 seconds until it makes room for summer freshness. Up to a speed of 50 km/h the hood can be operated while driving. Only the optional acoustic hood is even more impressive. When closed, it reduces noise so effectively that you can fully concentrate on your driving experience.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

With the extremely efficient TFSI® and TDI engines in the Audi A5 Cabriolet you will soon forget your everyday affairs and get on with discovering something new. Enormous torque strength and power reserves characterise the engines just as smooth running and efficiency. Bundled engineering power is embedded in each of the engines.

When cornering, you feel the athletic character particularly clearly. One of the factors responsible for this is the optional quattro® all-wheel drive with wheel-selective torque distribution and self-locking centre differential, which variably distributes driving force. The new electromechanical power steering assists you with high dynamics in curves and stability on the straight.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

The redesigned optional xenon headlights with LED daytime running light band give the Audi A5 Cabriolet a determined look. The striking front section and the layout of the horizontal lines on the rear enhance this impression. Exclusivity does not fall by the wayside: accentuated high-gloss elements highlight the individuality and turn each stop into sheer enjoyment.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

These are the intensive driving moments which make the Audi A5 Cabriolet so inviting and express themselves in the interior. At a glance you are aware of the tremendous claim to exclusivity, design and technology. And to your comfort: on request, heated and ventilated climate-controlled comfort seats as well as headroom heating at the front guarantee a relaxed journey. The automatic belt presenter and the optional drinks holders integrated in the rear bench seat make the journey even more pleasant.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

Top-quality materials create a sovereign atmosphere and emphasise the high-quality craftsmanship. Each detail is ergonomically tailored to the driver – like the optional MMI® navigation plus, for example. You can navigate using the high-resolution colour display and the aid of 3D map representation – or even with Google Earth images in conjunction with the Bluetooth car phone online. At the same time, you can use the integrated hard disc for your music and video files. Just in case you want to enjoy more than the wind in your hair and the countryside.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

Can do more. If that's what you want.

What makes the Audi S5 Cabriolet stand out? The fact that it makes every summer an adventure, because it can be driven in an even more challenging way. A powerful engine and its absolutely athletic tuning make it almost as agile as a full-blooded sports car. That is why it can do more. That is why it is the S5 Cabriolet.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

S5

Audi S5 Cabriolet

Every day you get a choice with the S5 Cabriolet: How do you want to have fun? Is it a day to test the quattro® permanent all-wheel drive? Or to provoke the high-performance braking system with ventilated brake discs? Or to exploit the 245 kW of the V6 TFSI engine and feel just how excellently the S sports suspension corresponds to your favourite stretch of road? If so, then increase the revs and make acquaintances with the athletic genes of the S5 Cabriolet. Whatever type of fun you feel like having, you will get lots of it.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

Not only can you have a marvellous time with the S5 Cabriolet, you can also effortlessly make up time. The natural dynamism of the S5 Cabriolet can be additionally adapted to your own personal driving style with the optional Audi drive select. The new efficiency mode puts you particularly economically on the road. At the same time, a range of different optional systems ensure your safety: Audi active lane assist warns you if you inadvertently drift out of your lane, while adaptive cruise control regulates the distance to the vehicle in front through automatic braking and acceleration – even bringing you to a complete standstill if necessary. And the new electromechanical steering reacts at lightning speed and efficiently to your steering commands.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

A high degree of sportiness – during every ride. The drawn-out silhouette begins with the newly designed front end: striking xenon headlights with the new LED daytime running light band immediately draw attention to the challenging character of the S5 Cabriolet. Oval twin tailpipes and LED rear lights catch the eye. A long wheelbase, short overhangs and the red S5 emblem in the Singleframe signal a readiness to perform. The standard acoustic hood completes the aerodynamic silhouette.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

Share your driving adventure with others, even if there is a risk that your travel companions will never want to get out again: superb comfort and excellent manufacturing ensure that the occupants of the four full-size seats get maximum enjoyment from their cabriolet experience. The luggage compartment has a capacity of 320 l when the hood is open and 380 l when it is closed. A folding rear seat backrest and the through-load facility increase the capacity still further to 750 l. Despite all this practicality, there is no shortage of fun either, particularly if you choose the optional MMI® navigation plus. Together with the Audi connect services and the optional Bluetooth car phone online, you have communication and navigation functions such as Google Earth or Google point of interest (POI) search available. The Alcantara/leather combination, the leather-covered multifunction sports steering wheel in 3-spoke design with shift paddles in aluminium look and the special S design instrument cluster ensure that the vehicle's dynamism is reflected in the interior too. If ever being seated could be sporty, it would be in the S5 Cabriolet.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

The image shows optional S sports seats, front.

The engine management system calculates the injection quantity and ignition timing according to how much power the driver wants. In normal operation, the injection pressure is between 30 and 120 bar.

- Fully electronic coolant regulation
- Power train with reduced friction losses
- Dual FSI/MPI injection system
- Audi valvelift system and double camshaft adjustment
- Cylinder head with integrated exhaust-gas cooling

1.8 TFSI engine

Many hours of development. Thousands of miles of testing.
And for what reason?

In just a few seconds
you will understand why.

TFSI® technology is used in the Audi A5 Coupé and A5 Cabriolet. What's special about that is: it combines the advantages of FSI® with a supercharging that ensures even better power distribution. The two TFSI engines you have available are all equipped with the economic start-stop system and it goes without saying that they comply with the EU5 emission standard.

The 1.8 TFSI has 125 kW of power and a maximum torque of 320 Nm. And yet it is one of the most fuel-efficient engines of its class: in the ideal case, consumption is as low as 5.7 l per 100 km in the A5 Coupé with manual transmission. It accelerates from 0 to 100 km/h in 7.9 seconds. In the A5 Cabriolet you need 8.7 seconds to reach the 100 km/h marker. The

2.0 TFSI has 155 kW of power and a maximum torque of 350 Nm. This engine version is also characterised by good consumption values and low CO₂ emissions, and gets you from 0 to 100 km/h in 6.5 seconds in the A5 Coupé with quattro® drive and S tronic.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

S engine:

More dynamics. More power.
Completely S.

The S5 Coupé and the S5 Cabriolet are also fitted with efficient TFSI® technology. These two vehicles have a 3.0 TFSI V6 engine that generates a powerful 245 kW. An innovative mechanically-driven supercharger system with charge air intercooler is employed here and turns the six-cylinder engine into a compact powerhouse with moderate fuel consumption. This is assisted by the start-stop system that switches the engine

off automatically in different standstill situations, and switches it on again when the brake is released. The S5 Coupé and S5 Cabriolet are exclusively available with the fast, 7-speed double clutch S tronic and quattro® permanent all-wheel drive

It is not just the peak torque of 440 Nm; also impressive is the torque curve, with at least 90 %

of the maximum torque being available across a speed range of 2,200 to 5,900 rpm. Thanks to its spontaneous responsiveness and exceptional power delivery across the entire speed range, the six-cylinder engine promotes a particularly dynamic driving style. That way, it accelerates the S5 Coupé from 0 to 100 km/h in 4.9 seconds and the S5 Cabriolet in 5.4 seconds.

- Switchable water pump
- Integrated charging module
- High-pressure pump
- Timing drive chain

3.0 TFSI V6 engine

The Audi R18 TDI

TDI: start a revolution. And keep repeating it.

Exhaust-gas turbocharger with optimised adjustable turbine geometry

2,000 bar high-pressure injection system

Engine with reduced friction

Pressure-regulated oil pump

Innovative thermal management with separate cooling system for engine block/cylinder head

3.0 TDI engine (150 kW)

One in every two Audi cars sold today is a diesel. What sounds perfectly normal now was cause for huge excitement 20 years ago, when Audi revolutionised the market with the first 2.5 litre TDI engine. Since then, developments such as common rail technology have made TDI even more efficient. Piezo injectors ensure the fuel is finely and precisely distributed. Consequently, since the first TDI, the engines have become more economical, whilst specific output has increased. So it was only logical that a diesel car

should then enter the world of motorsport. And successfully too: in 2006, Audi was the first car maker to win the Le Mans 24 Hours with a diesel-powered race car, the Audi R10 TDI – and then went on to repeat this victory several times over, most recently in 2011.

Powerful TDI engines are available for the Audi A5 Coupé and A5 Cabriolet, which are equipped with intelligent common rail technology and the standard start-stop system. The particularly

The piezo injectors open and close in fractions of a millisecond and inject fuel several times into the combustion chamber at pressures of up to 2,000 bar. In some cases, an injection process can involve the injection of the tiniest of amounts weighing less than a thousandth of a gram.

Pre-injection results in a “gentle” combustion process and consequently excellent combustion acoustics and agreeable engine running characteristics.

economical 2.0 TDI with 130 kW is available both with a 6-speed manual transmission and with the convenient multitronic system. The 3.0 TDI with 150 kW is new, and one of the most efficient 6-cylinder engines in the world. The top-of-the-range engine is the 3.0 TDI quattro with 180 kW and S tronic. To reach 100 km/h, you need just 5.8 seconds in the A5 Coupé and only half a second longer in the A5 Cabriolet.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

Why do the Audi A5 and S5 suit you so well? Because they adapt themselves to you so well.

Audi drive select.

Everybody defines driving dynamics differently. We define it like this: drive exactly how you feel. With the optional Audi drive select, you can influence individual vehicle components at the push of a button and so change the character of your Audi.

You have up to five modes available: efficiency, comfort, dynamic, auto and, in conjunction with one of the optional MMI® navigation systems, individual mode, allowing you to determine yourself how the associated vehicle components

should behave. The comfort mode is especially suitable for providing the most relaxed driving possible on long journeys. The auto mode offers a generally comfortable yet sporty driving experience. For particularly sporty driving, for example on winding roads, there is the dynamic mode. The efficiency mode, however, allows consumption-improved driving. As an integral part of Audi drive select, it is characterised by a changed shift program in models with automatic transmission, as well as more energy-efficient operation.

In every mode, the vehicle adjustments depend on the equipment present. Audi drive select affects the engine, transmission and steering as standard. In addition, you can influence the suspension with damper regulation, the dynamic steering* and the quattro® with sports differential among other features – if available. The engine and gears react more spontaneously or in a more balanced manner to movements of the accelerator, depending on the mode chosen. Moreover, the engine speeds at which gear changes take place are varied in models with

automatic transmission – in dynamic mode, they only happen at higher engine speeds, while in comfort mode they take place at lower ones. The steering can also be adapted to the driving situation, from sporty and firm to comfortable. quattro with sports differential distributes the drive force variably to the rear axle to attain a high level of agility and acceleration performance while cornering.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards. * For information on when this feature will be available, please contact your Audi partner.

With quattro® we created one of the best all-wheel drive systems in the world.

Of course, that was not enough for us.

quattro® is a permanent all-wheel drive system. If the wheels on one axle of the vehicle lose grip on the road and threaten to spin, then the power is transferred to the other axle – automatically and permanently distributed through the centre differential. The basic distribution is 40:60 – 40 % of the power goes to the front axle, 60 % from the rear. The benefit is better traction during acceleration and improved safety due to exceptional grip. So much for the technology. But what makes quattro unique is really the driving feel. “As if you are stuck to the road,” some customers say. We put it like this: quattro gives

you a better feel for the road and thus more safety.

The optional quattro® with sports differential further reinforces this unmistakeable quattro feeling. Vehicles tend to experience understeer when steering or driving into corners. This is a normal physical process: a moving object opposes a change in direction. The elastic tyres and the suspension mounts tense up until the new direction has been adopted.

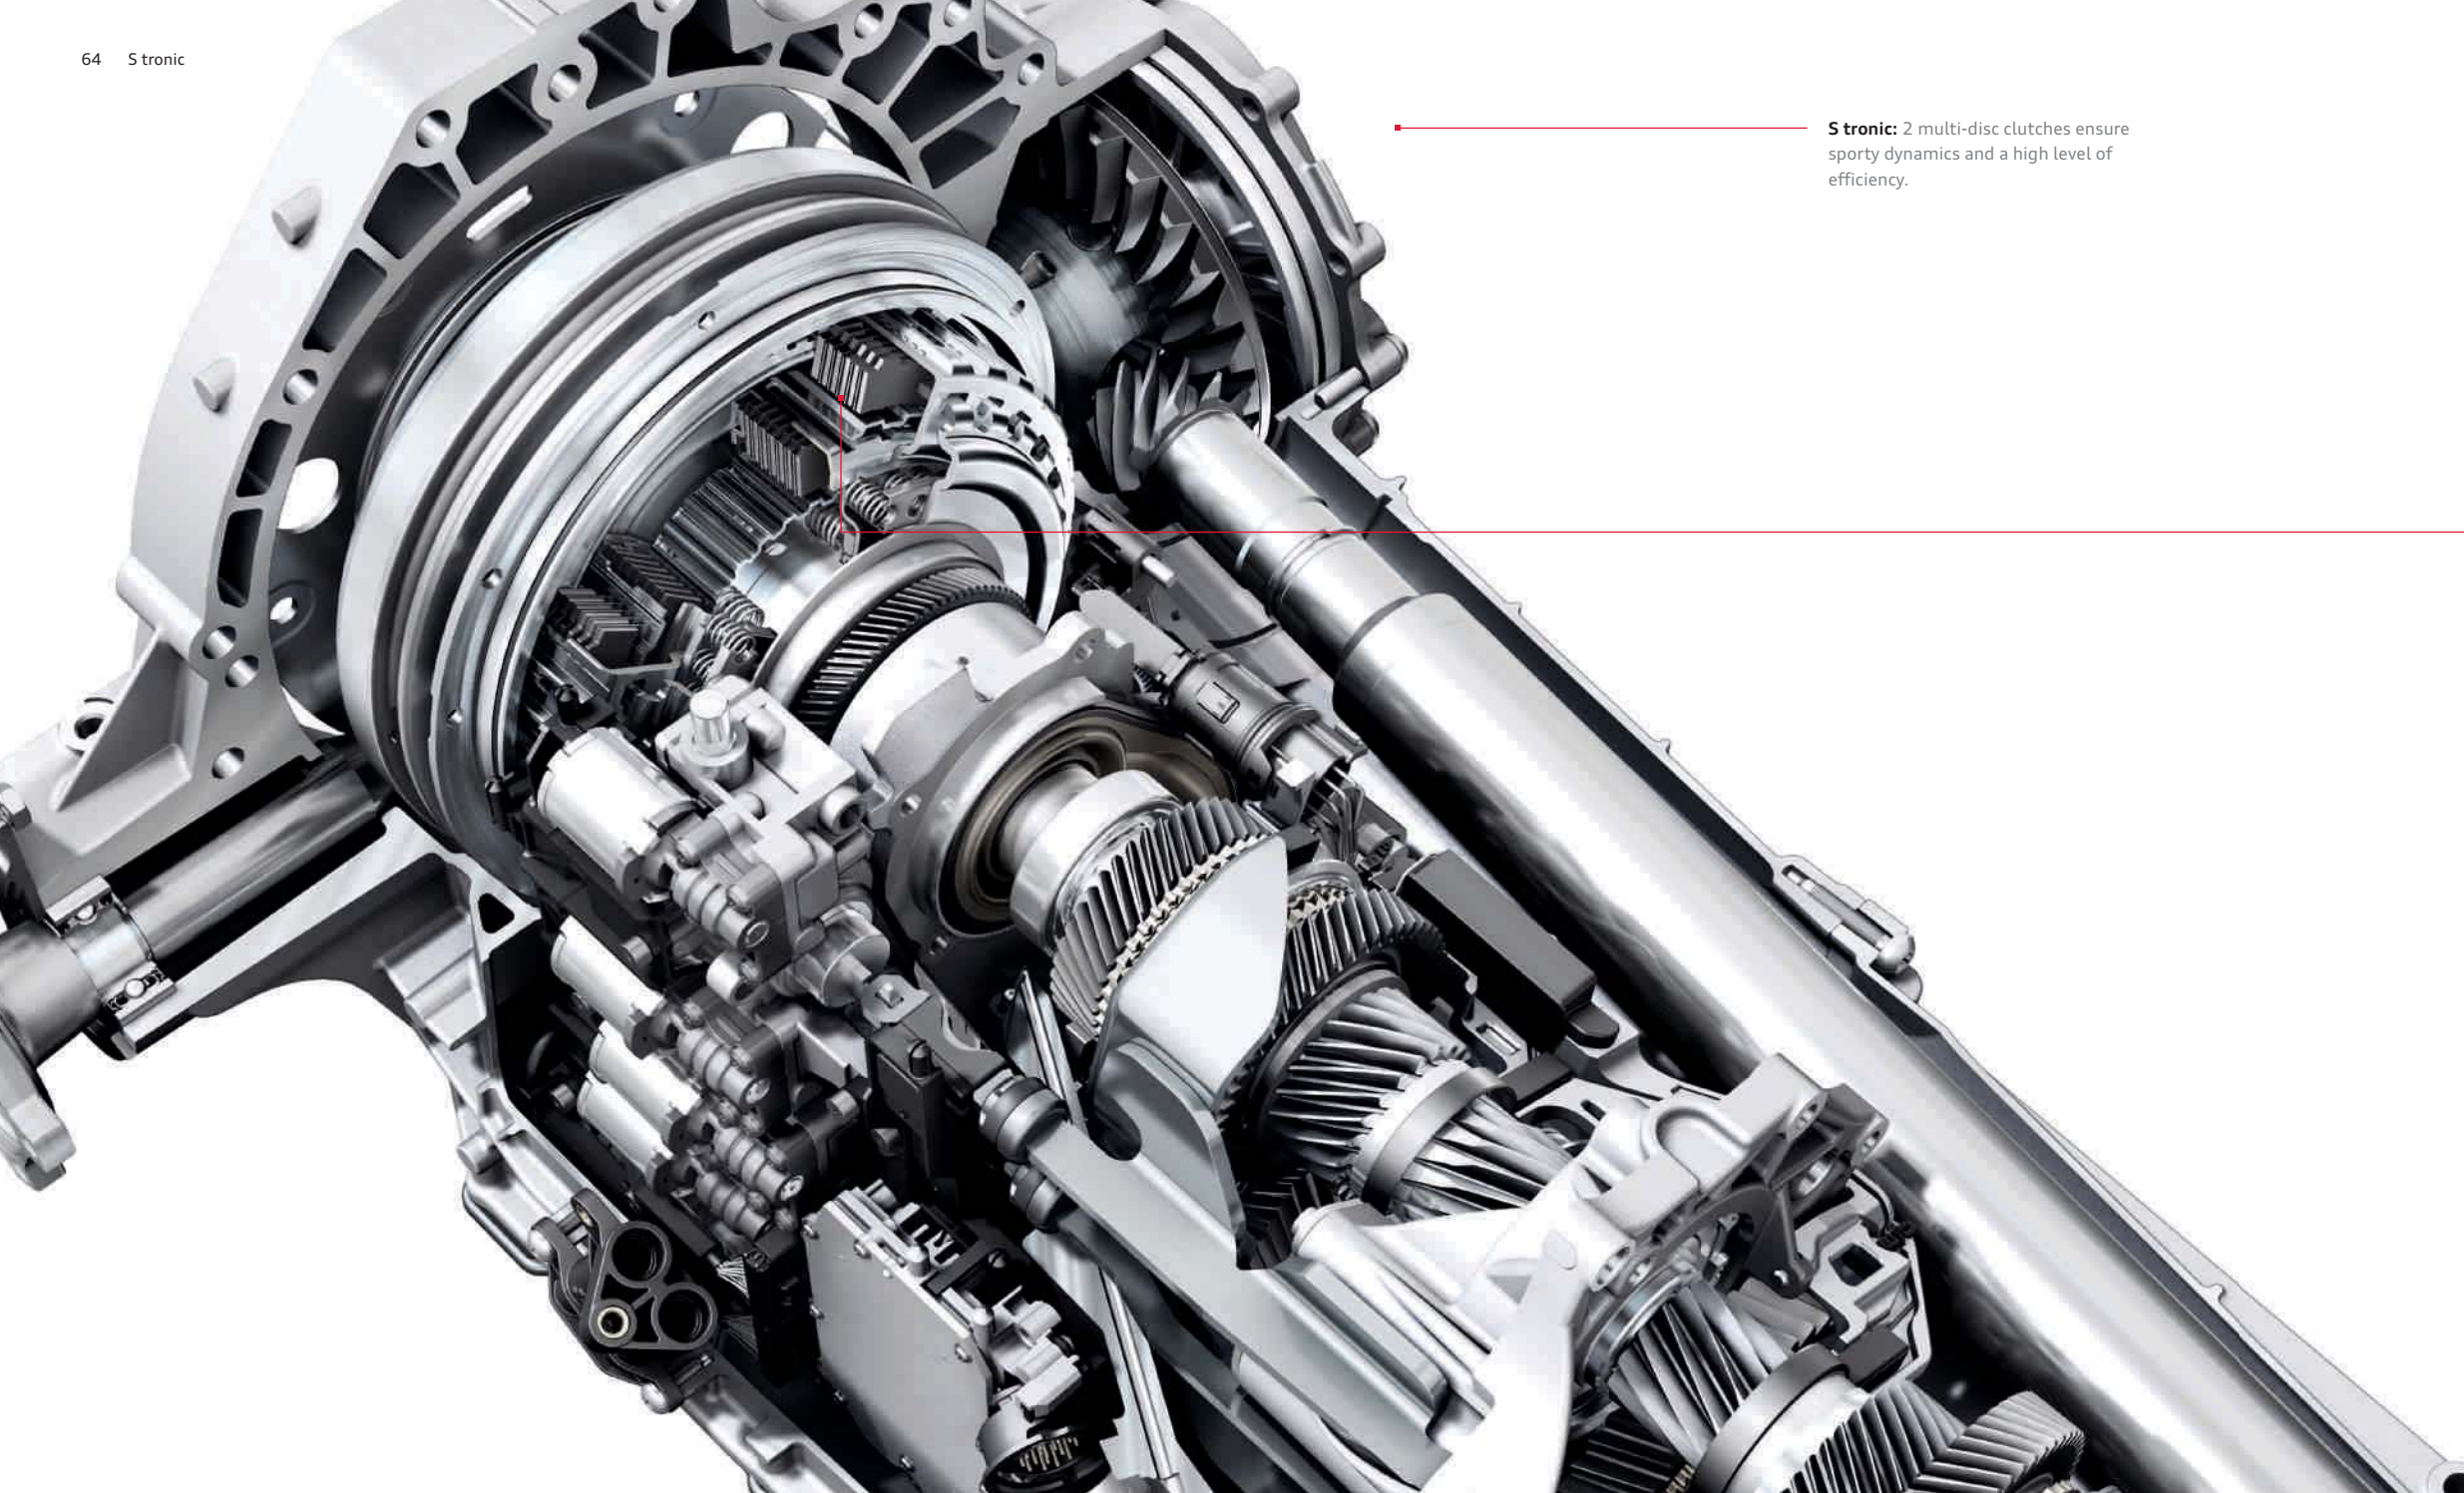

When accelerating into a corner, the load on the front axle is reduced and it therefore transfers less lateral force to the tyres – the vehicle understeers. With the sports differential on the rear axle, the tendency to understeer is largely counteracted.

This is because the quattro rear axle differential has been extended left and right by a clutch system with two gear levels. They ensure that the individual wheels on the rear axle receive different levels of torque. The clutches are activated by an electro-hydraulic actuator. Depending, for example, on the steering angle, lateral

acceleration, yaw angle and driving speed, the system calculates the right distribution of wheel torque for any driving situation. In this way the power is specifically channelled to the outer rear wheel, when steering or accelerating into a corner. The effect: the vehicle is virtually pressed into the corner and follows the angle of the front wheels. The variable left and right driving forces also help stabilise the steering and the usual steering corrections are hardly necessary.

quattro® with sports differential
continuously varies the amounts of driving force distributed to each rear wheel and ensures high cornering agility and impressive driving dynamics.

S tronic: 2 multi-disc clutches ensure sporty dynamics and a high level of efficiency.

What is the benefit of two clutches?

A double saving: time and energy.

The 7-speed dual clutch transmission enables rapid gear shifting with hardly any perceptible break in propulsive power and is therefore particularly efficient.

As long ago as 1985, Walter Röhrl tested this technology in the Sport quattro S1 – and was suitably impressed. Audi drivers share his enthusiasm to this day, because the modern S tronic changes gear in a flash. To do this, two multi-plate clutches serve the different gears. One large clutch transfers the torque via a solid drive shaft to the gearwheels of the odd-numbered gears. A second clutch serves the even-numbered

gears via a hollow shaft. Both parts of the transmission are permanently active, although there is only ever one actively connected to the engine via a closed clutch. For example, when the driver accelerates in third gear, the second part of the transmission is already engaged in fourth gear. The gear change happens very quickly through the change of clutches – the first clutch opens, whilst the second one closes. The gear change only lasts a few hundredths of a second and is completed with virtually no interruption in the power flow. It runs so smoothly and comfortably that the driver barely notices it.

It does not matter whether the driver chooses the fully automatic modes with the programs D (Drive) or S (Sport) or, for example, changes gear manually with the optional shift paddles – the gear change feels precise and extremely sportive. Even with all of this dynamic technology, the S tronic still remains very efficient. Due to its high level of efficiency, it helps to reduce both fuel consumption and emissions.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

Radio: the integrated radio receiver is set up for VHF, LW and MW and optionally transmits digital radio with a continually updated station list.

Media: display of available media sources such as the jukebox, inserted SDHC cards, Audi music interface or CDs and DVDs; display of optional TV tuners

Telephone/Bluetooth: the optionally available fitting for mobile phone (Bluetooth) and Bluetooth car phone online has a selection screen containing call lists, directory and selection interface as the start-up setting.

Car: this function allows the direct control of driver assistance systems, vehicle settings, climate control and service functions.

Traffic information online: with detailed traffic flow information on the navigation map, faster information about traffic jam build-up and clearance, greater cover of the road network (e.g. including major A and B roads)

Travel information/weather and news online: with Audi connect you can keep up-to-date with information even when on the road. Renowned national and international editors provide texts and images on topical subjects. And providing the respective supplier supports the feature, the news is outputted in the selected language in the MMI navigation plus.

Navigation/Google search: a UMTS module is used to navigate on the basis of true-to-life Google Earth images. High-resolution aerial and satellite images make orientation quite simple. Google point-of-interest search can be used with voice control for plain text and keyword searches, providing you with detailed tips about your destination. (Voice control not available for A5 Cabriolet/SS Cabriolet). Using my Audi or Google Maps you can prepare your very own navigation destinations on your PC at home and send these to your vehicle. When you start your ride, they are loaded into the MMI® navigation plus.

Follow your intuition – it will get you to the right destination.

Our claim “Vorsprung durch Technik” is one that we are trying to fulfil in every part of an Audi – as demonstrated by the Multi Media Interface (MMI®) which has undergone further development. The MMI is used to operate a number of in-car media, the navigation system and other comfort functions.

Until now, the MMI has been easy to use – but the new MMI® navigation plus makes it even easier, with a reduced number of buttons for a better overview. All six so-called hard keys, for telephone or navigation functions for example, are located around the central rotary/push-button control – for intuitive operation. The buttons for radio and media are logically located close to the volume control.

In conjunction with Bluetooth car phone online, you have Google Earth images available for navigation, amongst other things. The Google point-of-interest search will take you to restaurants, sites or other places that might be individually interesting for you. And on request, Digital Audi Broadcasting reception (DAB) guarantees even more music enjoyment.

By the way, in the A5/SS Coupé you can make all your navigation system entries by voice control, leaving you more relaxed when you reach your destination.

Online at all times with Audi connect. Even on the road.

Mobile information services: the ultimate connection. Straight from the Internet: use Audi connect to search for any special destinations in the MMI® using Google, request the latest news and the current weather forecast for your destination. Data transfer is handled via the UMTS module of the Bluetooth car phone online, which can be ordered as an option for the MMI®

navigation plus. The WiFi hotspot is a world first and can be fitted ex-factory if required. You can request important information, data and e-mails using your laptop, iPad or netbook as conveniently as if you were in the office. Communication with the Internet takes place via a vehicle-specific UMTS module through the roof aerial.

Because they protect something very valuable, you will find our most outstanding employees working in the area of vehicle safety.

The development of a new vehicle includes a number of crash tests. At first as virtual tests on the computer, then finally with the car itself in the halls of the Audi Vehicle Safety Department. Our engineers do not just evaluate data from their own series of tests but also data from real accidents recorded by accident researchers and scientists from the Audi Accident Research Unit (AARU).

The unit was founded in 1998 and works together with the police and doctors to establish the most accurate information possible about accidents. With the help of this information, our series of tests is continually being refined.

In the A5 and S5 models, there are many safety features which work in concert. In the event of an

accident, the engine and the fuel supply are immediately stopped, the door locking mechanism is opened and the hazard lights are activated. The interior of the vehicles is equipped with an airbag system: adaptive full-size driver and front-passenger airbag with seat position recognition function, side airbags at the front and a head airbag system¹ are standard. The

front seats are additionally equipped with belt tensioners² and belt force limiters, and the special seat structure impedes slipping underneath the seat belt. The highly rigid passenger compartment made from quality steel with improved deformation qualities offers extremely good protection.

The Audi A5 not only comes with many new technical innovations but also with something extra special on request: a sort of sixth sense – or Audi pre sense. Driving situations are categorised through a radar sensor, and warning measures initiated through to collision avoidance. Audi pre sense front additionally monitors the traffic ahead via a radar sensor of the optional adaptive cruise control. In critical situations, the Audi braking guard warns the driver and reinforces braking force if necessary.

adaptive cruise control including Audi pre sense front: within the control range from 30 to 200 km/h the automatic distance control detects vehicles driving in front within system limits using a radar sensor. The distance to the vehicle in front is maintained through automatic braking and acceleration. In addition, Audi braking guard warns the driver about an imminent collision with the vehicle in front through an extended braking assist feature. If a collision with a stationary or moving vehicle is imminent at a vehicle speed of less than 30 km/h, maximum deceleration is initiated to avoid this collision if possible.

Audi active lane assist supports you when travelling at speeds of around 60 km/h or above, when you inadvertently drift out of your lane, for example, through inattentiveness. Before you cross over the lane marking which is detected by the camera behind the windscreen, a gentle corrective steering movement occurs. If the indicator has been activated, there is no correction. You have the choice between two system settings (steering time early [A] or late [B]). Identification of lane markings by the sensors is dependent on the weather, lighting and quality of the marking.

The lane change assistant Audi side assist informs you from speeds of 30 km/h and above with a signal in the exterior mirror as soon as the system detects another vehicle in the adjacent lane.

Please note: the systems can only work within system limits. They can support drivers, but they are still required to be attentive at all times.

*Optional equipment.

¹ Head airbag system only available with A5/S5 Coupé. ² Belt tensioners also in the rear in A5/S5 Cabriolet models.

Efficiency: standard in every Audi.

The direct route to enhanced efficiency is via innovation. For decades, Audi has been continuously providing decisive impetus for the entire automobile industry, thereby proving that effective efficiency is the result of a sustainable strategy. That's why fuel consumption and emission-reducing measures are fitted as standard to all Audi models. The extensive technologies are combined in a model-specific manner and are implemented consistently throughout the entire vehicle fleet.

The Audi Space Frame (ASF), which is used in a range of Audi models, is a milestone in the extensive experience Audi has gained with lightweight construction. With this revolutionary construction method, the weight of the body shell is reduced by about a third in comparison with conventional steel constructions. The latest innovation in lightweight construction: the weight-reducing aluminium hybrid construction used in the Audi A6. Furthermore, with the TDI,

Audi has developed one of the world's most successful diesel technologies. The combination of direct diesel injection and turbocharging provides high efficiency and excellent engine power. Current highlight: the 3.0 TDI clean diesel in the Audi A4 Saloon¹. It already fulfils the EU6 emission standard that does not come into force in Europe until 2014.

Another highlight: the downsizing technology on the TFSI[®] petrol engines. Five times in succession, the 2.0-litre TFSI engine has been voted "Engine of the Year"². A new evolutionary stage in efficiency is set by Audi with the Q5 hybrid quattro: as a pioneer of electrical mobility, it marks the entry into a future that will have low emission levels in the long term.

The potential of the frugal TDI and TFSI engines is brought particularly efficiently onto the road with the S tronic dual-clutch transmission with low engine speeds and shorter gearshifting times. And the aerodynamic design of the Audi bodies can contribute to an additional fuel saving through a combination of low drag and low lift.

All measures contribute towards a perfect combination of efficiency and sportiness in every Audi. Today – and also in the future. So that you can at all times feel the demand that we have always placed on ourselves: Vorsprung durch Technik.

¹ Fuel consumption in l/100 km: urban 8.7; extra-urban 5.5; combined 6.7; CO₂ emissions in g/km: combined 175.

² The "International Engine of the Year Awards" are awarded by renowned automotive journalists from more than 30 countries: UKIP Media & Events Ltd.; www.ukipme.com/engineoftheyear

It is the equipment that turns an Audi into your Audi.

Because nobody knows your taste as well as you do:
Audi exclusive.

Each year Audi sells hundreds of thousands of vehicles. Yet they only sell yours once. How is that possible? With the quattro GmbH service, which makes your Audi unmistakable: Audi exclusive. Paint finishes customised to your concept, fine leather, high-quality Alcantara and selected woods and trim; it is these materials and the precise workmanship which give your Audi its own unique personality. Your Audi partner and the Audi Forum Neckarsulm customisation studio await your wishes.

S line – redefining sportiness.

Driving an Audi A5 Coupé/A5 Cabriolet is a clear commitment to automotive sportiness. The S line packages allow you to enhance the athletic appearance of the Audi A5 Coupé/A5 Cabriolet even more: with a range of equipment that accentuates their dynamic lines, gives their interior a perceptibly sporty identity and further enhance their driving performance. Decide on a plus in sportiness.

The fuel consumption and CO₂ emission figures can be found from page 120 onwards.

Lights			
			
xenon plus including headlight cleaning system The headlights with durable gas discharge technology for dipped and main beam enable an intensive illumination of the road with evenness and range, in a colour resembling daylight both close-up and in the distance. The automatic dynamic headlight beam control prevents oncoming traffic from being dazzled; daytime running light band and rear lights in LED technology with low power consumption	Headlights A5 Coupé/A5 Cabriolet: halogen headlights utilising free-form technology with clear glass covers, electric headlight range control and parking light function, daytime running lights with separate reflectors	LED rear lights LED brake and rear lights; reversing lights, rear fog lights and indicator lights have bulbs; A5/S5 Coupé: rear number plate lights in LED. (Only in conjunction with xenon plus)	Front fog lights incorporated into the bumper
Daytime running lights with separate reflectors, with xenon plus daytime running light band in homogeneous LED technology with low power consumption, integrated into the headlights	High-beam assist working within system limits, it automatically detects the headlights of oncoming traffic, the rear lights of other road users and built-up areas. Depending on the traffic situation, the high beam is automatically switched on or off. The system thereby improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience. (Can only be ordered in conjunction with automatically dimming interior mirror)	Rear lights A5 Coupé/A5 Cabriolet: in red, with reversing lights in white, integrated rear fog lights	Lighting package includes illuminated vent controls and inside door handles, active door reflectors, entry lights, front and rear footwell lights, illuminated glove compartment; A5/S5 Coupé: rear reading lights; A5/S5 Cabriolet: LED technology for the front interior lighting and make-up mirror illumination
adaptive light* The dynamic cornering light identifies the course of the road from the movement of the steering wheel. The headlights swivel – depending on the steering angle – towards the curve and in this way variably illuminate the course of the curve. The adaptive light is operational between speeds of approx. 10 km/h and 110 km/h. Also included is the turning light, which automatically switches on when the indicator has been engaged for a while and illuminates the new direction in which the vehicle is driving; including headlight cleaning system. (Can only be ordered in conjunction with xenon plus)	Interior lighting with delayed switch-off and contact switches on all doors; lighting for luggage compartment, driver, front-passenger and rear compartment, 2 reading lights at front, illuminated make-up mirrors, ambient lighting; A5/S5 Coupé: interior light at rear	Headlight cleaning system uses water and high pressure, for better illumination, less scatter and good visibility	Light/rain sensor for controlling the automatic headlights, the coming home/leaving home function and the automatic wiper function, includes windscreen with grey-coloured strip along the top edge

The model-specific standard and optional equipment can be found in the index from page 128 onwards.

Mirrors	Roof systems
Exterior mirror with integrated LED indicator electrically adjustable, convex, flat or aspherical mirror glass; S5 Coupé/S5 Cabriolet: with additional heating function Also optionally: electrically adjustable and heated both exterior mirrors and windscreen washer jets heated electrically adjustable, heated and folding electrically adjustable, heated, folding and automatically dimming on both sides	 Panoramic tilting sunroof A5/S5 Coupé: electrically operated, made from tinted single-glazed safety glass with manually-adjustable sunscreen, convenience locking/opening from outside via the central locking and the radio-operated remote control Fully automatic hood A5 Cabriolet: made from insulated 3-ply fabric, hood actuation up to a speed of 50 km/h Acoustic hood A5/S5 Cabriolet: fully automatic, made from insulated 3-ply fabric, due to improved material thickness and connection the noise level in the interior is clearly improved, hood actuation up to a speed of 50 km/h, including make-up mirror illumination, LED interior front and rear light Wind deflector A5/S5 Cabriolet: can be stowed away in the luggage compartment in the spare wheel well, as long as the space-saving wheel is not ordered
Interior mirror dimming Interior mirror, automatically dimming with light/rain sensor; A5/S5 Coupé: windscreen with grey coloured strip; including windscreen with acoustic glazing for improved windscreen insulation and a reduction of outside noise	

* For information on when this feature will be available, please contact your Audi partner.

Closing systems
Central locking with autolock function and radio-operated remote control incorporated into the vehicle key
Radio-operated remote control for the central locking, with interior switch; incorporated into the vehicle key; with one touch of the button the system opens and locks doors, windows, luggage compartment and the tank flap – with variable code; A5/S5 Cabriolet: including glove compartment lock; S5 Coupé/S5 Cabriolet: radio controlled key with S5 emblem
Immobiliser, electronic incorporated in the engine control unit, automatically activated by the vehicle key
Anti-theft alarm including interior monitoring system and tow-away protection via angle of inclination sensor; can be deactivated; signal horn for monitoring the doors, bonnet and luggage compartment lid independent of vehicle electrical system
Fitting for Tracking Assistant Fitting for connecting a Tracking Assistant (available from Audi Genuine Accessories) that enables a stolen vehicle to be located
Ignition lock electronic, ignition key features integrated chip, automatically stores relevant vehicle service data (mileage, chassis number and much more)
Luggage compartment lid, automatically opening A5/S5 Coupé: when the luggage compartment is released by the radio-operated remote control, the button in the door or by the soft-touch release on the luggage compartment lid, the luggage compartment lid automatically swings open.

Closing systems

Convenience key access and authorisation system; the key only needs to be carried with you; the engine is started and switched off via the engine start-stop button on the centre console, the vehicle is locked from outside via buttons on all door handles; the vehicle can also be opened from the luggage compartment lid; A5/S5 Cabriolet: convenience closing/opening of hood via the radio-operated remote control within a 4 m radius of the vehicle
Garage door opener (HomeLink) programmable radio-operated remote control, control buttons integrated in the interior lighting module; can be used to open many garage doors and exterior gates; control of safety and lighting systems possible
Glazing Heat-insulating glass green tinted, windscreen made of laminated glass
Dark-tinted windows (privacy glazing) A5/S5 Coupé: dark-tinted rear window and rear side windows
Rear window heated, made of glass, with timer
Windscreen cleaning system 2-speed operation, 4-speed adjustable intermittent wipe, flick-wipe function, automatic wash/wipe function
Sunblind A5/S5 Coupé: electric, for the rear window
Further exterior equipment
Fitting for trailer towing hitch includes wiring in the spare wheel well, a prepared ABS control unit and adapted engine cooling. The set of parts for retrofitting is available from Audi Genuine Accessories.
Trailer towing hitch removable and lockable, sphere bar and ball head made from forged steel, the 13-pin socket can be swivelled out of sight behind the bumper skirt; when removed, the towing device can be stored in the spare wheel well; trailer stabilisation system via ESP
High-gloss package A5/S5 Coupé: roof frame and window slot trim in anodised aluminium

Further exterior equipment
Aluminium-look exterior A5/S5 Cabriolet: surface of windscreen frame, window slot trim and cover strip in anodised aluminium
Rear spoiler S5 Coupé: integrated into the luggage compartment lid
Model name/logo model name on the luggage compartment lid, quattro logo (for quattro® models) on the radiator grille, on the luggage compartment lid and on the dashboard on the passenger side, on request the vehicle can also be supplied without the model name on the rear; S5 Coupé/S5 Cabriolet: S5 model name on the luggage compartment lid and the radiator grille, on the leather-covered sports steering wheel and in the rev counter; quattro logo on the dashboard on the passenger side, V6 T emblem on the front wings
Bumpers¹ S5 Coupé/S5 Cabriolet: front and rear, with distinctive sporty design, body-coloured, S rear diffuser, with rear blade in aluminium look; A5 Coupé/A5 Cabriolet: in a striking, sporty design
Audi Singleframe radiator grille in high gloss black; S5 Coupé/S5 Cabriolet: in Platinum grey with chrome struts
Exhaust tailpipes A5 Coupé: visible, single-branch design, 2 tailpipes on the left for 1.8 TFSI, 2.0 TFSI and 2.0 TDI; visible, dual-branch design, 1 tailpipe each on the left and right for 3.0 TDI; A5 Cabriolet: visible, single-branch design, 2 tailpipes left for 2.0 TDI; visible, dual-branch design, 1 tailpipe each on the left and right for 1.8 TFSI, 2.0 TFSI and 3.0 TDI; S5 Coupé/S5 Cabriolet: visible, dual-branch design, 2 oval tailpipes each on the left and right with polished surrounds
Sill strips¹ S5 Coupé/S5 Cabriolet: body-coloured

Seats/seating comfort

Memory function for driver's seat including electrically adjustable front seats; 2 different memory sets for the electrically adjustable driver's seat and exterior mirrors
4-way lumbar support electric, for driver and front-passenger seats, with horizontal and vertical adjustment
Front seats, electrically adjustable electric adjustment for seat height, fore/aft position and seat and backrest angles, with electric 4-way lumbar support; additional electric head restraint height adjustment for standard front seats, sports front seats and climate-controlled front seats
Folding rear seat backrest A5/S5 Coupé: can be split and folded 1/3, 2/3 or completely, with remote backrest release in the luggage compartment; S5 Coupé: rear bench seat with integral centre storage tray; A5/S5 Cabriolet: can be split and folded 50:50 or completely, with remote backrest release in the luggage compartment
Seat heaters, front heats seat cushions and backrests; on sports seats or leather seats also heats the side bolsters; individually adjustable in several stages for driver and front-passenger seats
Seat heaters, front and rear² functions as for front seat heaters, additionally also for rear seats
Heat protection A5/S5 Cabriolet: (for direct sunlight) for front seat cushions and backrests, for Alcantara/leather combination, Milano leather and Fine Nappa leather. The special colour pigmentation of the leather prevents excessive build-up of heat. The infrared radiation in sunlight is reflected. The heat protection can reduce surface temperature by up to 20°C.
Centre armrest, front can be adjusted lengthways; with fold-open storage compartment and two 12 V sockets in the centre console; A5 Cabriolet: one 12 V socket in the centre console
Centre armrest, rear A5/S5 Coupé: foldable
Leather-covered armrests in the door trims includes rear side panel trims in leather to create an exclusive look for the interior
Head restraints front and rear, height adjustable; A5/S5 Cabriolet: height only adjustable at the front; integrated head restraints on front S sports seats are not adjustable
ISOFIX child seat mounting for the rear seats standard bracket for the practical fastening of child seats in accordance with ISO standards; compatible child seats can be obtained from your Audi partner.
ISOFIX child seat mounting for the front passenger seat with passenger airbag deactivation switch

Steering wheels/gear levers/controls

Leather-covered sports steering wheel in 3-spoke design A5 Coupé/A5 Cabriolet: with full-size airbag, adjustable for height and reach, includes leather gear lever knob or selector lever knob and gaiter
Steering wheel rim customised with Audi exclusive leather available in all Audi exclusive colours; individual choice of colour for seams in various Audi exclusive colours. From quattro GmbH
Steering wheel rim with wooden segments available in Walnut dark brown in 4-spoke design for leather-covered multifunction steering wheel, optionally with shift paddles. From quattro GmbH
Audi exclusive steering wheel rim with wooden segments available in Audi exclusive woods in 4-spoke design for leather-covered multifunction steering wheel, optionally with shift paddles. From quattro GmbH
Leather-covered multifunction sports steering wheel in 3-spoke design with full-size airbag, adjustable for height and reach, includes leather gear lever knob or selector lever knob and gaiter in leather; for operating the basic functions of Audi navigation systems, radios, voice control system (only with A5/S5 Coupé), Bluetooth interface, mobile phone fitting or car phone; models with automatic transmission optionally have shift paddles behind the steering wheel; S5 Coupé/S5 Cabriolet: with S5 emblem, decorative seam in contrasting colour, shift paddles in aluminium look
Controls customised with Audi exclusive leather steering wheel rim, gear/selector lever and gear/selector lever gaiter leather-covered; available in all Audi exclusive colours; individual choice of colour for seams in various Audi exclusive colours. From quattro GmbH

Steering wheels/gear levers/controls

Leather-covered multifunction sports steering wheel in 3-spoke design, flattened at the bottom
equipment as leather-covered multifunction sports steering wheel; models with automatic transmission optionally have shift paddles behind the steering wheel; S5 Coupé/S5 Cabriolet: with S5 emblem, decorative seam in contrasting colour, shift paddles in aluminium look

Audi exclusive gear lever knob in aluminium
A5 Coupé/A5 Cabriolet: for manual transmission.
From quattro GmbH

Climate control

Automatic air conditioning
with sunlight-dependent control, electronically regulates the air temperature, flow rate and distribution, with ram air control and manual recirculation mode, humidity sensor, dust and pollen filter, defroster vents for the windscreen and the side windows, key-coded settings; A5/S5 Cabriolet: programming of 2 temperatures for when the hood is open and closed, retrieved as a key-coded setting

3-zone deluxe automatic air conditioning
with sunlight-dependent control, electrically regulates the air temperature, flow rate and distribution, separate temperature distribution for driver, front-seat passenger and rear compartment, temperature and air distribution adjustable left and right in the front, control panel for setting the temperature in the rear compartment in the rear centre console, automatic recirculation mode by means of air quality sensor, front control panel with digital display, includes rain, light and humidity sensor, combined fine dust filter, indirect ventilation, key-coded settings; A5/S5 Cabriolet: key-coded settings with programming of 2 temperatures for when the hood is opened and closed, retrieved as a key-coded setting

Auxiliary heating/ventilation
A5/S5 Coupé: the auxiliary heating heats up the interior and frees the windows from ice, the ventilation system supplies fresh air and reduces the interior temperature; complete with timer and separate radio-operated remote control with radio feedback

Headroom heating
A5/S5 Cabriolet: at front, adjustable in 3 stages, vents on the front-seat backrests

Luggage securing and storage systems

Storage compartments
in the front and rear door trims with storage for drinks bottles; A5/S5 Coupé: spectacles holder in the front interior lighting module above the interior mirror; A5/S5 Cabriolet: storage compartments in the right and left side trim (on the right-hand only if Audi sound system or Bang & Olufsen Sound System is fitted), storage nets on the front seat backrests

Glove compartment
A5/S5 Cabriolet: lockable

Storage package
A5/S5 Coupé: includes storage nets on the front seat backrests, storage compartment under the front seats (if memory function for the driver's seat is fitted, only under the front-passenger seat), drinks holder in the rear centre armrest and a lockable glove compartment

Drinks holders
in the centre console

Drinks holders integrated in the rear seat bench
A5/S5 Cabriolet: for 2 drinks, includes cover and additional storage compartment under the front-passenger seat

Lashing points
4 in the luggage compartment, for attaching luggage and other objects; A5/S5 Coupé: attachment points for the combined net

Luggage securing and storage systems

Luggage compartment package
A5/S5 Coupé: consisting of a combined net in the luggage compartment, fastening hooks, luggage net on the right hand side of the luggage compartment and a 12 V socket

Through-load facility with removable ski/snowboard bag
A5/S5 Coupé: secured by a strap, for practical transportation of long items, e.g. up to 4 pairs of skis up to 200 cm in length, or 2 snowboards

Ski/snowboard bag
A5/S5 Cabriolet: for the practical transportation of long items, e. g. up to 4 pairs of skis up to 200 cm in length, or 2 snowboards

Hood compartment, variable
A5/S5 Cabriolet: with lowering hood tray. The hood tray lowers automatically when the hood is opened, if sufficient room is available in the luggage compartment. For loading, the hood tray can be lifted when the hood is closed

Further interior equipment

Floor mats, front
A5 Coupé/A5 Cabriolet: in velour coordinated with the selected carpet colour

Floor mats, front and rear
in velour, coordinated with the selected carpet colour

Audi exclusive floor mats
Individual choice of colour for floor mats and piping from the range of Audi exclusive colours.
From quattro GmbH

Audi exclusive carpet and floor mats
Individual choice of colour for carpets, floor mats and piping from the range of Audi exclusive colours.
From quattro GmbH

Door sill trims
with aluminium inlays on the door sills;
S5 Coupé/S5 Cabriolet: with S5 logo

Window controls
A5/S5 Coupé: electric, with safety system to limit closing force, one-touch opening/closing function with convenience operation, fixed rear windows; A5/S5 Cabriolet: electric front and rear with safety system to limit closing force, one-touch opening/closing function with central window switch in the centre console

Cigarette lighter and ashtrays
ashtray in the centre console, front and rear (with A5/S5 Cabriolet only at the front), cigarette lighter integrated in the front ashtray

Grab handles
A5/S5 Coupé: damped action, foldable, 2 handles recessed into the roof, no grab handles if panoramic tilting sunroof is fitted

12 V socket
A5/S5 Coupé: part of the luggage compartment package; A5/S5 Cabriolet: in the side trim of the luggage compartment on the right-hand side at the rear

230 V socket
A5/S5 Coupé: in the centre console in the rear, replaces the 12 V socket

Aluminium look on the interior
on the light switch, air-conditioning system, MMI rotary/push-button control, vents, mirror adjustment switch, window controls and around the gear or selector lever gaiter

MMI® and navigation systems

Audi connect
Networked mobility. The term Audi connect combines all the applications and developments that connect the Internet, the owner and the infrastructure in current and future Audi models. Audi connect creates infotainment and entertainment functions and raises the level of both automotive comfort and fun to new heights. Online information (such as navigation with point-of-interest search, Google Earth images, weather, news, Audi traffic information online) is transmitted directly and integrated into the vehicle via a UMTS module integrated in the Bluetooth car phone online and the customer's SIM card in the vehicle. The optional MMI® navigation plus makes the use of these Audi connect services possible. Thanks to a WiFi hotspot, the Internet can be accessed via a mobile end device from the rear during driving or when the vehicle is at a standstill.
Important notes: online services are only available in conjunction with mobile phone contracts with data option and only within the range of the respective mobile networks. Additional costs can be incurred for the reception of data packages from the Internet, depending on the terms of your mobile phone contract, particularly when used abroad: because of the high data volume involved, the use of a data flat rate is strongly recommended! Please contact your mobile services provider for more detailed information. Audi connect is available in all European countries except for Turkey, Malta, Cyprus and Iceland. In Russia only in the Moscow and St. Petersburg areas. A separately charged mobile phone contract may be necessary for use of the online services and the WiFi hotspot. Please contact your mobile services provider for more detailed information. Your Audi partner can inform you about the availability of the individual Audi connect services in your vehicle. On request, you can have your Audi fitted with a WiFi hotspot for wireless internet access in the factory. Equipping with a WiFi hotspot is optional and can only be ordered in conjunction with MMI navigation plus. Simple operation via MMI navigation plus, a leather-covered multifunction steering wheel or voice control system (not with A5/S5 Cabriolet). The WiFi hotspot is installed if you order a Bluetooth car phone online.

MMI® and navigation systems

MMI® navigation plus
including navigation data (hard drive), high-resolution 7-inch colour display with high-quality map display and topographical map colour, display of a lot of sightseeing information and 3D city models, choice of 3 alternative routes provided, scrolling along the route, joystick map manoeuvring function in the control button, spoken TMCpro reports, split-screen route information (manoeuvring points, points of interest on motorways, TMCpro on route), detailed junction map and lane recommendations, dynamic route guidance with TMCpro (where available), voice control system (destination entry by means of whole word input in a sentence; only with A5/S5 Coupé), additional arrow display in the driver information system with colour display, 8 passive loudspeakers, total output 80 watts, radio with triple tuner and phase diversity, hard drive can also be used to store music (20 GB), MP3, WMA, AAC and MPEG-4-compatible DVD player can also be used for music and video DVDs, 2 SDHC card readers (for up to 32 GB), AUX-IN connection. The use of Audi connect services (e.g. navigation using Google Earth images, weather and news, Audi traffic information online) is possible in combination with Bluetooth car phone online. (A5 Coupé/A5 Cabriolet: can only be ordered in conjunction with driver information system with colour display and a leather-covered multifunction steering wheel)

Navigation data (hard drive)
contains navigation data for the following countries (where digitised):
Europe: Albania, Andorra, Austria, Belarus, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy, Kosovo, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Moldova, Monaco, Montenegro, the Netherlands, Norway, Poland, Portugal, Romania, Russia, San Marino, Serbia, Slovakia, Slovenia, Spain (including the Canary Islands), Sweden, Switzerland, UK, Ukraine, the Vatican
North America: Bahamas, Canada, Mexico, Puerto Rico, USA (including Alaska, Hawaii, Virgin Islands)
Other regions: AGCC (Abu Dhabi, Bahrain, Dubai, Qatar, Kuwait, Oman, Saudi Arabia), Australia, China, Hong Kong, Japan, Macao, Malaysia, New Zealand, Singapore, South Africa

MMI® navigation
including navigation data (DVD), 6.5-inch colour display with high-quality map representation and numerous detailed display options, voice control (destination entry via spelling; only with A5/S5 Coupé), dynamic route guidance with TMC (where available), MP3 and WMA-compatible DVD player for navigation data (DVD), can also be used for music CDs, additional arrow display in the driver information system (S5 Coupé/S5 Cabriolet with colour display), radio with triple tuner, phase diversity, 2 SDHC memory card readers (for up to 32 GB), AUX-IN connection, 8 passive loudspeakers, total output 80 watts. (A5 Coupé/A5 Cabriolet: can only be ordered in conjunction with driver information system and a leather-covered multifunction steering wheel)

Navigation data (DVD)
contains navigation data for the following countries (where digitised): Albania, Andorra, Austria, Belarus, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy, Kosovo, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Moldova, Monaco, Montenegro, the Netherlands, Norway, Poland, Portugal, Romania, Russia, San Marino, Serbia, Slovakia, Slovenia, Spain (including the Canary Islands), Sweden, Switzerland, UK, Ukraine, the Vatican

Driver information system
A5 Coupé/A5 Cabriolet: a monochrome display provides you with information from the onboard computer, auto check system, scope of display of the MMI system, brake wear indicator at front, clock and digital speed display; the outside temperature display shows an ice crystal at temperatures under +5 °C to warn of possible black ice. The display is also used to indicate the recommended gear in vehicles with manual transmission. The integrated efficiency programme assists you with consumption data overviews, display of additional loads and fuel-saving tips for more economic driving; including attention assist

Driver information system with colour display
equipment as driver information system, plus high-resolution colour display

Attention assist
Part of the driver information system; the attention assist analyses driving behaviour using a range of sensors and warns the driver if anything indicates that he is starting to become inattentive. Steering movements and switch/pedal actuation are recorded and compared with the individual driving patterns of the respective driver. Attention assist warns the driver by means of a display in the driver information system and an acoustic signal. The system is active from 65 km/h and can be deactivated at any time via the car menu.

Radio and TV systems

chorus radio
with CD player, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch monochrome screen, speed-dependent volume control, phase diversity, 8 passive loudspeakers, total output 80 watts; Please note: certain car menu settings cannot be made using the chorus radio.

Digital Audio Broadcasting reception (DAB)
for concert or symphony radio as well as for the navigation systems, in addition to the range of analogue stations, programmes from digitally broadcast radio transmitters with better sound quality can be received, including DAB+. In connection with MMI navigation or MMI navigation plus also reception of DMB audio, a 2nd DAB tuner permanently searches for alternative reception frequencies of the set radio station, at the same time the station is updated. Please note: reception depends on local digital network availability.

concert radio
equipment as chorus radio; plus 6.5 inch TFT colour display, SDHC card reader (up to 32 GB), both MP3, AAC and WMA-compatible, TP memo function and AUX-IN connection

TV reception
Reception of digitally broadcast (DVB-T), uncoded television stations (MPEG-2 or MPEG-4 standard), DVB-T audio stations, teletext and Electronic Programme Guide (EPG). External AV-IN connection via adapter cable (available through Audi Genuine Accessories). Please note: TV reception depends on local digital network availability. No AV or TV output when driving (audio output also available when driving)

CD changer
in the glove compartment, for 6 CDs (MP3 and WMA compatible), shock-resistant, easily accessible, without magazine; each CD can be loaded and changed individually. Playback of copy-protected music files (DRM) is not possible. (Can only be ordered in conjunction with MMI navigation or MMI navigation plus)

symphony radio
equipment as concert radio, plus integrated 6-disc CD changer

Audi sound system
6-channel amplifier, 10 speakers including centre speaker in the dashboard and subwoofer in the parcel shelf (in A5/S5 Cabriolet in the left side trim), total output 180 watts. (Cannot be ordered in conjunction with chorus radio)

Audi music interface
for the connection of Apple iPods from generation 4, Apple iPhone (music functionality) as well as USB storage media and MP3 players. The Audi music interface is located in the glove compartment and operated via MMI navigation plus, MMI navigation, symphony radio, concert radio or a leather-covered multifunction steering wheel. Please note: can only be used in conjunction with a special adapter cable (available from Audi Genuine Accessories). Please contact your Audi partner or visit www.audi.com/mp3 for information on compatible MP3 players. (In conjunction with the Audi music interface, the AUX-IN connection is omitted.)

Adapter cable set for Audi music interface
consisting of 2 connection cables for the connection of iPod/iPhone or data carrier/media player with USB connection (Type A); further adapter cables available from Audi Genuine Accessories. Visit www.audi.com/mp3 for information on compatibility.

also available as:

Adapter cable set plus
in addition to the adapter cable set for Audi music interface support for the representation of cover arts, video function etc., depends on the iPod used; can only be used in conjunction with more recent iPod generations, for information on compatibility visit www.audi.com/mp3

Radio and TV systems

Bang & Olufsen Sound System surround sound reproduction via 14 high-performance speakers (A5/S5 Cabriolet: 12 high-performance speakers); 1 centre speaker and 2 midrange speakers in the dashboard; 1 tweeter in each mirror quadrant; 1 woofer in each front door; 2 tweeters and 2 low/midrange units in the side trims; 2 surround sound speakers (only for A5/S5 Coupé) and 1 subwoofer in the parcel shelf (A5/S5 Cabriolet in the left side trim), exclusive speaker covers with aluminium trim, dynamic driving noise compensation, 10-channel amplifier, total output 505 watts. The reproduction of 5.1 Surround Sound is possible in conjunction with MMI navigation plus and the integrated DVD drive. (Cannot be ordered in conjunction with chorus radio)
Telephone and communication
Bluetooth interface Bluetooth-compatible mobile phones can be connected to the vehicle via the interface. Hands-free calls are possible in the vehicle via the microphone; visit www.audi.com/bluetooth for information on compatibility. (Cannot be ordered in conjunction with chorus radio)

Fitting for mobile phone (Bluetooth)
comprises a hands-free facility and voice control for telephone functions as well as a fitting for optional mobile-specific charger in the centre console between driver and front-passenger seat; operation via MMI navigation plus, MMI navigation, concert radio, symphony radio, a leather-covered multifunction steering wheel or, where present, via the voice control system (only with A5/S5 Coupé); please contact your Audi partner or visit www.audi.com/bluetooth for adapters and information about which mobile phones are compatible. (A5 Coupé/A5 Cabriolet: can only be ordered in conjunction with a leather-covered multifunction steering wheel and a navigation system or a concert or symphony radio; S5 Coupé/S5 Cabriolet: can only be ordered in conjunction with a navigation system or a concert or symphony radio)

Telephone and communication
Bluetooth car phone your Bluetooth-compatible mobile phone can be conveniently connected to the vehicle's internal GSM module (provided the mobile telephone has an SIM Access profile), additional SIM card reader located in the surround of the MMI navigation. Transfer of phone book entries to the vehicle and management of call lists; simple operation using MMI navigation, leather-covered multifunction steering wheel or voice control system (only with A5/S5 Coupé); for information on compatibility visit www.audi.com/bluetooth . (Can only be ordered in conjunction with MMI navigation)

Bluetooth car phone online
your Bluetooth-compatible mobile phone can be conveniently connected to the vehicle's internal UMTS module (provided the mobile telephone has an SIM Access profile); additional SIM card reader in the surround of the MMI navigation plus. Transfer of phone book entries to the vehicle and management of call lists. Audi Online services allow additional online services such as point of interest search, navigation with help of Google Earth images, convenient route planning and destination entry using myAudi or Google Maps, information services e.g. weather and news, Audi traffic information online with detailed traffic flow information on the navigation map, quicker information on traffic jam build-up and clearance, greater coverage of the road network (e.g. national and rural roadways), WiFi hotspot for internet access for passengers in the rear passenger compartment using their mobile end device (e.g. laptop). Because of the high data volumes (currently concerns in particular navigation with the aid of Google Earth images and WiFi hotspot), a mobile phone contract including a data flat rate is strongly recommended! Online services are only available for mobile phone contracts including a data option and only within the coverage of the mobile phone network; they are only offered in Europe (in Russia only in the Moscow and St. Petersburg areas; not in Turkey, Cyprus, Malta and Iceland); there will be additional costs for the use of these services (charges and billing correspond to the personal mobile phone contract); The content and scope of the online-based services offered may vary. Simple operation via the MMI navigation plus, a leather-covered multifunction steering wheel or the voice control system (only with A5/S5 Coupé); for information on compatibility visit www.audi.com/bluetooth. (Can only be ordered in conjunction with MMI navigation plus)

Handset for the Bluetooth car phone and Bluetooth car phone online
with colour display and integral SIM card reader, for making private calls; texts can be easily written thanks to automatic word recognition. Handset is stored in the centre armrest at the front

Assistance systems

Parking system plus with reversing camera* acoustic and visual parking system for front and rear, image of area behind the vehicle shown on the MMI display, with dynamic display modes showing the calculated path (steer-angle dependent); includes help lines and guidelines and identification of point at which to apply opposite lock when parallel parking, reversing camera concealed in the handle strip of the luggage compartment lid. (Can only be ordered in conjunction with a navigation system)

Parking system, rear
makes reverse parking easier by indicating acoustically how far away the vehicle is from a detected object; measurement is by ultrasonic sensors concealed in the bumper

Parking system plus
acoustic and visual parking system for the front and rear with MMI display; measurement is by ultrasonic sensors concealed in the bumpers. Cannot be ordered in conjunction with chorus radio

Hold assist
holds the vehicle stationary for unlimited periods after stopping, on almost every uphill and downhill gradient. The system is activated by push-button and allows the driver to drive away easily and comfortably without having to operate the electromechanical parking brake.

adaptive cruise control
automatic distance control (control range 30–200 km/h); working within system limits, it uses a radar sensor to detect vehicles ahead and maintain this distance by automatic braking and accelerating; 4 distance levels and different driving modes can be selected individually; including Audi pre sense front: braking guard warns the driver through an enhanced brake assist of any imminent threat of collision with the vehicle in front; extended by the function of maximum deceleration. This is initiated at speeds below 30 km/h if there is a danger of collision with a stationary or moving vehicle in order to avoid this collision if possible. (Cannot be ordered in conjunction with chorus radio)

* For information on when this feature will be available, please contact your Audi partner.

Suspensions/brakes
Audi drive select changes vehicle characteristics e.g. by adapting power steering assistance, accelerator and gearshift characteristics; the system also influences other optional equipment; available modes: comfort, auto, dynamic and – in conjunction with an MMI navigation system – individual. All models also have the efficiency mode, which shifts the engine, transmission, optional adaptive cruise control and climate control in a consumption-improved basic setting.
Dynamic steering* when changing lanes, parking and cornering, this system improves comfort and handling by dynamically regulating steering according to the driving situation. In addition to adaptation of the steering effort (as with the electromechanical servotronic), the steering angle is also adapted (steering ratio). The system is also supported further by vehicle stabilisation through ESP. (Can only be ordered in conjunction with Audi drive select)

Audi active lane assist
lane compliance assistant, supports the driver within system limits comfortably in keeping in the lane (operating range 60–250 km/h). If the system is activated and ready and the driver has not operated the indicators, the Audi active lane assist will guide the vehicle within recognised lane boundary lines by means of gentle, corrective steering intervention; the driver can choose whether he would like to be monitored continuously or just shortly before crossing the traffic lane marker (choice of earlier or later steering time); additional steering vibration can be adjusted if the driver wishes. (Can only be ordered in conjunction with high-beam assist, and cannot be ordered in conjunction with chorus radio)

Assistance package
The assistance package contains the functions of the following assistance systems: parking system plus (upgrade possibility for parking system plus with reversing camera), Audi active lane assist and adaptive cruise control

Dynamic suspension
A5 Coupé/A5 Cabriolet: providing outstanding handling and exceptional levels of driving comfort with 5-link lightweight front axle, tubular anti-roll bar; trapezoidal-link rear axle with independent wheel suspension; twin-tube gas-filled shock absorbers and coil springs, flexibly mounted subframe at rear, at front rigidly bolted to vehicle body

Suspensions/brakes
Sports suspension A5 Coupé/A5 Cabriolet: with stiffer spring and damper tuning for more direct contact with the road and sporty handling
S line sports suspension A5 Coupé/A5 Cabriolet: with more dynamic suspension tuning and vehicle lowered by 10 mm
S sports suspension S5 Coupé/S5 Cabriolet: with stiffer spring and damper tuning for more direct contact with the road and sporty handling; 5-link lightweight front axle, front axle, tubular anti-roll bar; trapezoidal-link rear axle with independent wheel suspension, twin-tube gas-filled shock absorbers and coil springs, front axle carrier rigidly fixed to the bodywork, flexibly mounted axle supports at rear
Braking system dual-circuit braking system with diagonally split braking system, Anti-lock Brake System ABS with Electronic Brake Force Distribution EBD, Electronic Stabilisation Programme ESP with brake assist, tandem brake booster, disc brakes at the front/rear, ventilated at the front; S5 Coupé/S5 Cabriolet: high-performance brake system with internally ventilated brake discs on front and rear axles
Brake callipers S5 Coupé/S5 Cabriolet: painted black, front callipers with S5 emblem

Electromechanical parking brake
includes parking brake function when stationary, drive-off assistance function through automatic release when driving away and emergency braking function whilst driving acting on all 4 wheels

Technology/safety
Airbags adaptive front-end collision protection with seat position detection and full-size airbag for driver and front-seat passenger; A5/S5 Cabriolet: side airbags, front (head/thorax airbags); A5/S5 Coupé: side airbags, front (thorax/pelvis airbags), head airbag system
Head airbag system A5/S5 Coupé: unfolds over the entire length of the side windows in the area of the 1 st and 2 nd row of seats and protects the passengers in the front and rear seats in the event of a side impact
Integrated head restraint system In the event of a rear-end collision, the design of the seats stabilises the upper torso and provides better support for the head. This increases the level of protection and reduces the risk of a whiplash injury
Body, galvanised fully-galvanised in areas at risk from corrosion, unitary construction, welded to the floor pan, front and rear areas feature defined crumple zones, aluminium front wings. (12 year warranty against rust perforation)
Active rollover protection A5/S5 Cabriolet: automatically-triggered protective system behind the rear head restraints
Instrument cluster with adjustable lighting, electronic speedometer with odometer and trip odometer, rev counter and automatic ready-check when engine starts (only for A5/S5 Coupé and S5 Cabriolet), radio-controlled clock (GPS clock in conjunction with MMI navigation plus), coolant temperature display and fuel gauge; S5 Coupé/S5 Cabriolet: with S-specific grey dials, white needles, S5 emblem in the rev counter

Safety steering column includes a shunt mechanism with damping function to supplement the protection offered by the seat belts and airbags
Seat belts automatic 3-point belts for all 4 seats, with seat-belt reminder and belt force limiter at the front as well as belt tensioners at the front and rear (A5/S5 Coupé: only at the front), colour-coordinated with the interior
Automatic belt presenter A5/S5 Cabriolet: with 2 positions for people of different heights. The belt is automatically moved forward upon activation of the ignition and moved back again after the seat belt has been fastened.
Warning triangle with bracket on the inside of the luggage compartment lid
First-aid kit in the storage compartment in the rear centre armrest; A5/S5 Cabriolet: in the storage compartment under the driver's seat
Traction control (ASR) for good traction, reduces the spinning of the drive wheels

Electronic Differential Lock EDL On surfaces with varying levels of grip, this start-off assistant automatically brakes the drive wheels on any surface that is too slippery, thereby ensuring smooth, powerful progress; operates at speeds up to approx. 100 km/h.
Electronic Stabilisation Programme ESP networks the ABS, EBD, ASR and EDL with its own sensors and compares driving data with reference data; provides better stability at all speeds by targeted braking of individual wheels and intervention in the engine management system
ESP with electronic cross-axle lock A5 Coupé/A5 Cabriolet: the electronic cross-axle locking function is incorporated into the ESP on front-wheel drive models. It distributes the drive torque by means of targeted braking actions, depending on the driving situation. When cornering, the cross-axle lock actively counteracts understeer. The result is improved traction and dynamic performance when cornering and more precise and neutral handling (less understeer). Agility during steering is also improved.
Electromechanical power steering system maintenance-free rack & pinion steering with speed-dependent servo assistance; precise steering feel at high speeds, excellent assistance when parking
Manual transmission A5 Coupé/A5 Cabriolet: 6-speed, all-synchromesh, hydraulically-actuated dry clutch with asbestos-free linings, 2-mass flywheel

Technology/safety
multitronic A5 Coupé/A5 Cabriolet: the multitronic generation of continuously variable transmissions, featuring dynamic gear control program (DCP) and sport program; 8 different gears can be selected in manual mode; hydraulically controlled multi-plate clutch (available for models with front-wheel drive)
S tronic available for models with quattro® permanent all-wheel drive, the 7-speed, electrohydraulically actuated dual-clutch transmission facilitates shorter gearshift times and gearshifting with virtually no perceptible interruption in the power flow; can be operated via the shift paddles behind the steering wheel (optional, standard with S models) or the selector lever. In automatic mode the driver can choose between the programs D (normal) and S (sport).
Front-wheel drive A5 Coupé/A5 Cabriolet
quattro® permanent all-wheel drive with asymmetric/dynamic torque distribution, self-locking centre differential with wheel-selective torque distribution, distributes the driving forces depending on the driving situation to each individual wheel for precisely controlled handling
quattro® with sports differential The electronically controlled sports differential variably distributes driving force to each wheel and ensures outstanding acceleration performance in corners and stabilises the vehicle's response to load change. It also improves direct steering characteristics and provides more agile handling due to the lower steering effort required. A5 Coupé/A5 Cabriolet: only available for 3.0 TDI

Recuperation Increasing the generator voltage converts kinetic energy into usable electrical energy when the vehicle is coasting or braking. This energy is then used to assist the generator during subsequent acceleration, saving up to 3 % fuel.
Start-stop system helps to reduce fuel consumption and CO ₂ emissions by switching off the engine in stationary phases, e.g. at traffic lights. The starting process is initiated as soon as the driver presses the clutch or releases the foot brake for the vehicle to move off again.
Misfuelling protection A5 Coupé/A5 Cabriolet: mechanically prevents incorrect fuelling of diesel vehicles with petrol

Audi extended warranty									
									
<p>Audi extended warranty can only be ordered directly and on purchase of a new car; is a consistent continuation of the manufacturer's guarantee so that you are protected against risk and can control servicing costs even after the first 2 years. There is a total of 9 lifetime/total mileage combinations to choose from:</p> <table><tr><td>Additional 1 year Audi extended warranty, maximum total mileage 30,000 km</td></tr><tr><td>Additional 1 year Audi extended warranty, maximum total mileage 60,000 km</td></tr><tr><td>Additional 1 year Audi extended warranty, maximum total mileage 90,000 km</td></tr><tr><td>Additional 2 years Audi extended warranty, maximum total mileage 40,000 km</td></tr><tr><td>Additional 2 years Audi extended warranty, maximum total mileage 80,000 km</td></tr><tr><td>Additional 2 years Audi extended warranty, maximum total mileage 120,000 km</td></tr><tr><td>Additional 3 years Audi extended warranty, maximum total mileage 50,000 km</td></tr><tr><td>Additional 3 years Audi extended warranty, maximum total mileage 100,000 km</td></tr><tr><td>Additional 3 years Audi extended warranty, maximum total mileage 150,000 km</td></tr></table>	Additional 1 year Audi extended warranty, maximum total mileage 30,000 km	Additional 1 year Audi extended warranty, maximum total mileage 60,000 km	Additional 1 year Audi extended warranty, maximum total mileage 90,000 km	Additional 2 years Audi extended warranty, maximum total mileage 40,000 km	Additional 2 years Audi extended warranty, maximum total mileage 80,000 km	Additional 2 years Audi extended warranty, maximum total mileage 120,000 km	Additional 3 years Audi extended warranty, maximum total mileage 50,000 km	Additional 3 years Audi extended warranty, maximum total mileage 100,000 km	Additional 3 years Audi extended warranty, maximum total mileage 150,000 km

Audi Genuine Accessories: your decision in favour of more individuality.

Have you been able to decide between four excellent vehicles? No matter which one you will be driving shortly – the A5 Coupé, S5 Coupé, A5 Cabriolet or S5 Cabriolet – each of them already has its own particular style. They are only missing one little thing: your personality. The following pages will show you a few of the options available for turning your Audi into the car that meets your requirements. Audi Genuine Accessories are made to match the respective model in design and functionality, enabling you to add your own very personal touches.

Detailed information can be obtained from the Audi A5 accessories catalogue, at www.audi.com, and from your Audi partner.

1 2 3

1 Side sill
Emphasises the dynamic side sections and gives the vehicle an individual touch.

2 Sports-style tailpipe trims
Dual-branch. Made of chrome-plated Stainless steel. Available for 4-cylinder models. Colour variants: silver and black.

3 Rear spoiler
For even more dynamics at the rear: the permanent rear spoiler (body-coloured in this example).

4 Snow chains
For improved grip on snow and ice. To fit wheel size 225/50 R 17, for example.

5 Cast aluminium winter wheels in 5-arm design
Complete winter wheel in size 7.5 J x 17 for 225/50 R 17 tyres, can be fitted with snow chains. You can find further wheels in different designs, including summer wheels, in the special accessories catalogue.

6 Luggage compartment tray
The raised lip of the luggage compartment tray protects the luggage compartment against soiling. The non-slip pattern reduces any slipping of the load. The tray is easily stowed away and takes up little space. The rigid luggage compartment liner and rubber floor mats offer even more protection against soiling.

7 Cabriolet care set
For basic care. Contains 300 ml active foam cleaner, 300 ml cloth impregnation agent (for hood and textile covers), insect remover gloves and 1 sponge.

8 Ski and luggage box (450 l)
This lockable ski and luggage box is particularly suitable for winter holiday use. It can be opened and loaded from either side. Suitable for skis up to 2.10 m long. Maximum permissible load of 50 kg must be observed. Further transport options are offered by the cycle mount, cycle fork mount and cycle rack for the trailer towing hitch. (Can only be used in conjunction with the carrier unit.)

9 Adapter cables for Audi music interface
Enables the connection of various iPod models and other portable media players. Operation via the MMI system, if this function is supported by the media player. Additional adapter cables are required for connection of portable media players. (Can only be ordered in conjunction with concert radio and symphony radio.)

[] Data refer to multitronic or S tronic. Explanation of ¹ to ⁸ on page 124.

Notes

¹ The figure stated was calculated using the specified measuring procedure (current version of Directive 80/1269/EEC).

² Weight of car, unladen, with driver (68 kg), luggage (7 kg) and with fuel tank filled to 90 %, calculated in accordance with the current version of Directive 92/21/EEC. Optional equipment may increase the car’s unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.

³ The engine’s power output always decreases with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.

⁴ A vehicle’s fuel consumption and CO₂ emissions do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming.

⁵ Regulated.

⁶ We recommend using sulphur-free super unleaded RON 95 in accordance with DIN EN 228. If not available, use sulphur-free regular unleaded RON 91 in accordance with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel in accordance with 692/2008/EC.

⁷ We recommend using sulphur-free diesel in accordance with DIN EN 590. If not available, use diesel in accordance with DIN EN 590.

⁸ The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.

Important note

Inspections are due as shown by the service display.

Audi A5 Coupé

Dimensions in millimetres.
Dimensions are for vehicle at unladen weight.
Luggage compartment volume 455/829 l (measured by the VDA method, using 200 x 100 x 50 mm blocks;
second value with rear seat back folded down).
Turning circle approx. 11.4 m.
*Maximum headroom. **Elbow room width. ***Shoulder room width.

Audi S5 Coupé

Dimensions in millimetres.
Dimensions are for vehicle at unladen weight.
Luggage compartment volume 455/829 l (measured by the VDA method, using 200 x 100 x 50 mm blocks;
second value with rear seat back folded down).
Turning circle approx. 11.4 m.
*Maximum headroom. **Elbow room width. ***Shoulder room width.

Audi A5 Cabriolet

Dimensions in millimetres.
Dimensions are for vehicle at unladen weight.
Luggage compartment volume 320 l with open hood, 380 l with closed hood,
750 l with the rear seat back folded down (measured by the VDA method, using 200 x 100 x 50 mm blocks).
Turning circle approx. 11.4 m.
*Maximum headroom. **Elbow room width. ***Shoulder room width.

Audi S5 Cabriolet

Dimensions in millimetres.
Dimensions are for vehicle at unladen weight.
Luggage compartment volume 320 l with open hood, 380 l with closed hood,
750 l with the rear seat back folded down (measured by the VDA method, using 200 x 100 x 50 mm blocks).
Turning circle approx. 11.4 m.
*Maximum headroom. **Elbow room width. ***Shoulder room width.
